

Please do not block Wisconsin's no call law. I work full-time and go to college 3/4 time. The quiet enjoyment of my residence is extremely precious and important to me. While I do occasionally receive sales calls that are in violation of the no-call list, the number of sales calls to my residence has decreased dramatically. As evidenced by the number of people who have taken the time and effort to sign up on the no-call list, it seems clear that a lot of Wisconsin residents also feel their time at home should be protected.
